

# Wyoming Collector and Transmission Task Force

***Presented by:***

***David Smith  
Task Force Member,  
TransWest Express, LLC***

# Task Force Participants

**LS Power**

## Wyoming Wind Collector and Transmission Task Force Objectives

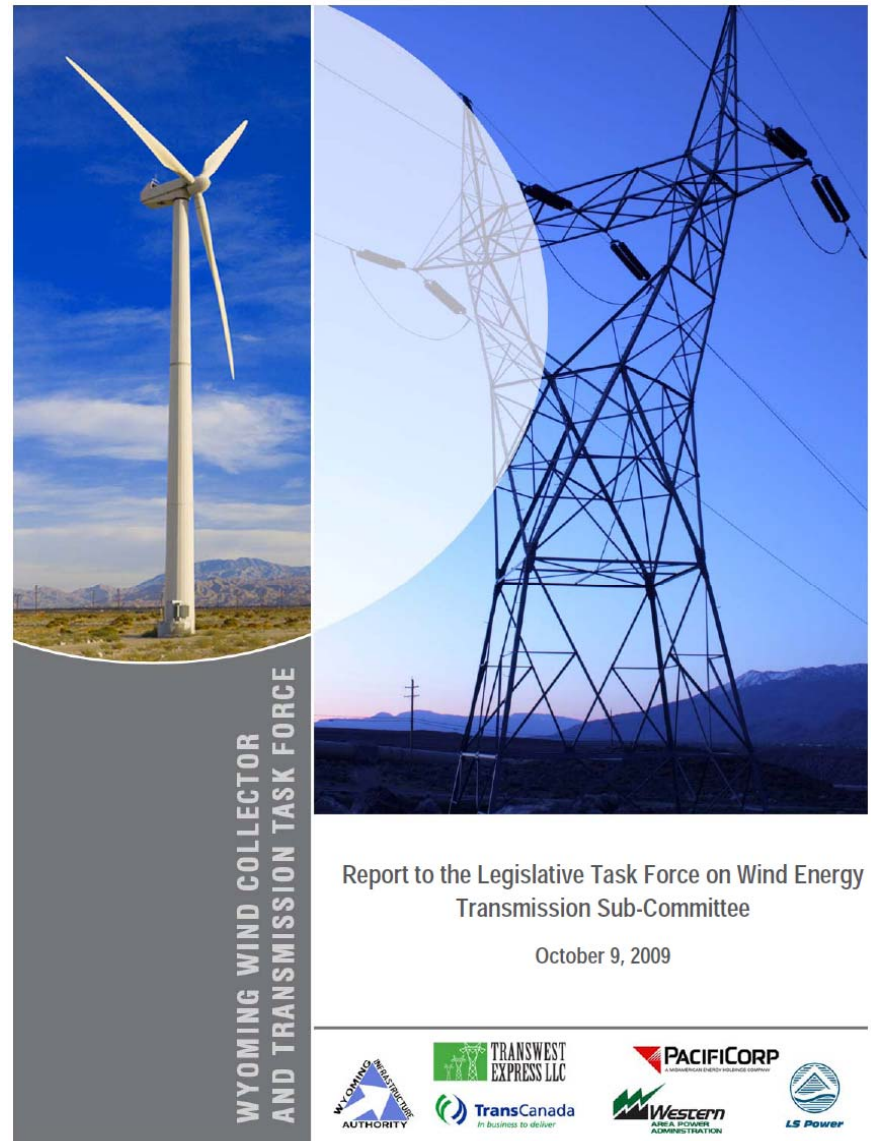

- Organized around common interests in developing Wyoming export capacity
- Develop a coordinated, staged conceptual plan for the collector system
- Develop a proposal to accommodate the interstate transmission lines and corridors required to collect and export these new resources

# Report to Legislative Task Force on Wind Energy

## Key Findings:

- Public Private Partnership Opportunity
- Coordination amongst various permitting processes
- Public recognition of the economic development opportunity of including renewable energy and transmission to Wyoming's energy infrastructure

*We need to work together to create a Win-Win Scenario for Wyoming*

# Wyoming Collector and Transmission Task Force Study Work

- Transmission Planning Process:
  - Scale to accommodate all projects – ‘sinks’
  - Various Resource Scenarios – ‘sources’
  - Analyze different collector designs
  - Build out stages
- Ad hoc analysis by Task Force Members
  - Results contained within October 2009 Report
- Need for focused analysis
